Tolman & Wiker Insurance Services, LLC

196 South Fir Street

Ventura, CA 93001

Direct: (805) 585-6115

mmelshenker@tolmanandwiker.com

Mike Melshenker joined Tolman & Wiker Insurance Services, LLC in 2011 as a Surety Account Manager, and was promoted to Surety Account Executive in 2014. Mike entered the insurance industry in 2003, and his department has markets to address all bonding needs including bid and performance bonds for contractors and developers, private or public. He is responsible for guiding clients through the submission process including applications or supplemental financial documentation and other information necessary to issue bonds for our clients. Mike believes an account should be reviewed fairly including experience and expertise, not just by the numbers, and his department uses this approach to provide exceptional service for all of our clients' surety bond needs.

Tolman & Wiker's Surety Bond Services help our clients to protect their investments in construction projects such as subdivisions and other miscellaneous projects, and allow others to increase revenue by opening availability for additional and larger projects. For more information, please contact us today. We look forward to working with you!
