**Gregory Stephens** joined Tolman & Wiker Insurance Services, LLC in 2015 as Vice President, Risk Advisor after having spent over a decade in the sales, service, and operations of independent insurance brokerages in both California and Colorado. Gregory is a professionally designated Commercial Lines Coverage Specialist, and focuses on property and casualty, workers' compensation, professional liability, employment practices, and risk management consulting to the energy industry, school districts, municipalities and construction firms. Gregory has also provided risk consulting for the entertainment industry, including business managers, legal counsel, artists and high-net worth individuals.

Prior to entering the insurance industry, Gregory had a successful career in management with Enterprise Rent-a-Car, and is an alumnus of Southwestern Advantage's Sales and Leadership program. Gregory attended Colorado State University in Ft. Collins, Colorado, and is a graduate of both The National Alliance for Insurance Education's Producer School and The National Underwriter designation program. In addition to being a ZyWave Insurance Software Champion, Gregory is also PEC SafeLand/SafeGulf certified and is actively working towards completion of the highly regarded ARM risk management curriculum.

As a trusted business partner, Gregory truly enjoys connecting with people to understand not just their operations, but them as people, and he applies our industry-leading resources and experience to help solve their unique challenges. A husband and father of two, Gregory has a heart for supporting families including those that have grown and been enriched through adoption, as his own family has. Gregory demonstrates his commitment to this cause through volunteer work as a local representative for Lifesong for Orphans, a Board Member for Woven Families Adoption, and as the Opening Ceremonies sponsor and team leader/volunteer with The Special Olympics. Originally from Colorado, Gregory now resides in Ventura County with his wife and two children.
