LOSS PREVENTION WEBINARS

Heat Illness Prevention Program Review

Thursday, May 27, 2021
9:00 AM to 12:00 PM (English)

We are now in May but at times it feels like we are already in summer. Getting into a closed vehicle can feel like you are stepping into a sauna and your body feels it fast. As temperatures rise, we need to ensure that we are protecting our employees. Making sure we have our Heat Illness Prevention Program in place is extremely important, especially when you consider that every year there are many deaths that result from the effects of a heat illness. Then there are also numerous cases where employees fall ill due to the heat and must receive emergency first aid at the worksite to help them recover. Some of those employees also required help beyond first aid and had to be treated by a medical professional in a hospital. Given the serious risk that the heat and a heat illness pose to the lives and to the health of workers working outdoors, Cal/OSHA is strictly enforcing the Heat Illness Prevention Standard. Each year the heat standard is one of the most cited and fined standards by Cal/OSHA. Please join us for this webinar as we review the Heat Illness Prevention Program requirements and help answer questions you might have on this important topic.

If you have any questions or to register for this FREE Webinar please contact Ms. Susie Rodriguez, Administrative Assistant III at 805.585.6797 or via email at srodriguez@tolmanandwiker.com

A Cal/OSHA study identified the key role that supervisors play in preventing worker fatalities due to heat illness. The findings highlighted the value of training supervisors so that they can make the fullest use of their supervisory power to control safety on the job.

Some of the topics we will cover include.

- Supervisors' responsibilities
- Potable drinking water
- Shade requirements
- Cool-down rest periods
- High heat procedure requirements
- Emergency response procedures
- Responding to signs & symptoms of a heat illness
- Acclimatization
- Training for supervisors and employees
- The written Heat Illness Prevention Plan

Speaker:

GILBERT J. CERVANTES

Vice President, Loss Prevention, Safety & Health

This is a complementary webinar with no charge to attend for clients of Tolman & Wiker Ins. There is a \$150.00 fee for all others. You must register to reserve your seat.

Once you have registered you will be sent the log in link and call-in information to the webinar.
